

## **CHONGQING BRAVO PACIFIC INDUSTRIAL CORP.,LTD.**

Chongqing Bravo Pacific Industrial Corp.,Ltd. is a private technology-based enterprise specializing in the research and development and manufacturing of fasteners for construction and vehicles and their applications. The sales company is located in the urban area of Chongqing, and its wholly-owned factory is located in Jieshi, Banan District. The company has gained a latecomer's advantage and gathered over ten industry elites and insightful individuals. Through cooperation with well-known German enterprises, it has basically formed a series of high-quality products that "meet the relevant enterprise standards of Germany and the United States".

At present, the company's main products are nails, drive pin , powder actuated tool, power loads , screws , anchor bolt and special fasteners. Our company's products are mainly used for equipment fixation and interior decoration in large public facilities such as sports venues, stations, docks and terminals.

Product quality and performance: Our company's products are made of high-quality steel and can penetrate 12mm steel plates under the action of the nail injector. In large high-rise buildings, the firmness of fixed facilities and objects is 2 to 5 times higher than that of expansion screws of the same model (in terms of tensile strength and suspended weight), and the construction efficiency is more than 3 times higher.

More than 90% of our company's products are sold to Europe, Southeast Asia, the Middle East, America and Asia. We have been dedicated to the research and development, manufacturing and sales of fastener series products. We have been recognized by the China Hardware & Tools Association and the China Chamber of Commerce for Machinery and Electronic Products, and have obtained the membership of the Two associations.
