

# Electrical

## Finding Electrical

**Breaker ID Pro 300**  
The Zircon™ Breaker ID Pro 300 circuit breaker finder identifies single and three-phase circuits of 50 Hz or 60 Hz between 80 –250 V AC and with multiple subpanels. Easy, one-person operation, and automatic calibration.

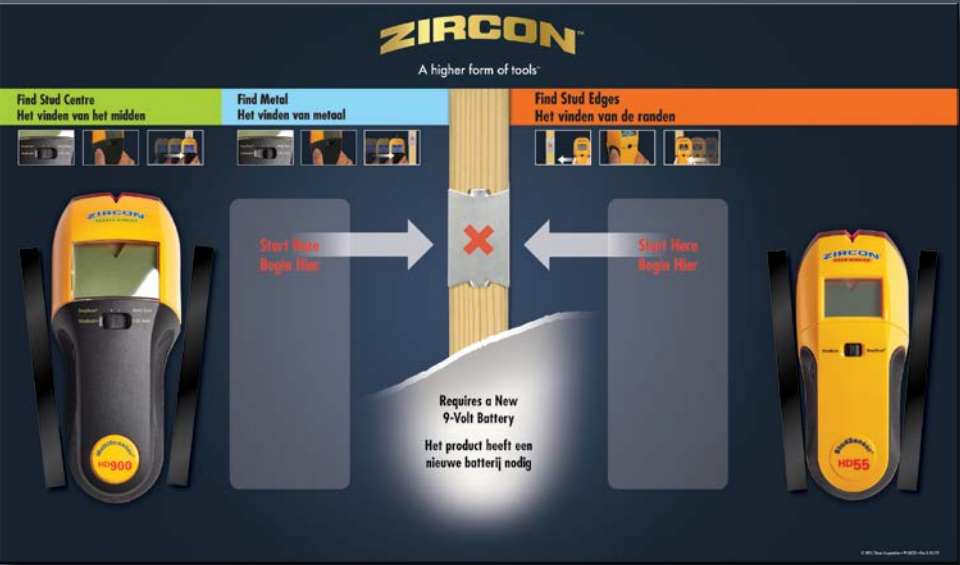

Use to identify a breaker without trial-and-error and isolate circuits.

Includes a receiver, a transmitter with a Europlug (Type C) for up to 250 V AC, and a carrying case for storage and protection.

# Merchandising Support

**Zircon™ merchandisers—an all-day salesperson.**  
Zircon's retail merchandisers are one key to selling success. Try-Me displays let customers try products and see the benefits before they buy, while Quarter Pallet and Sidekick displays allow branded volume sales at retail. Clipstrips can be used for cross-merchandising for extended exposure. These are just one more way we stand behind our products and help accelerate your sales.

## The Zircon™ Advantage

Zircon Corporation, a wholly-owned subsidiary of ZRCN Inc., is a global manufacturer and seller of electronic hand tools, including stud finders, metal detectors, electrical scanners, and water detectors. Based in Campbell, California in the heart of Silicon Valley, Zircon has been a leader in its field since its inception, leveraging over 80 global patents and registered designs based on sensor and semiconductor-based technologies.

Zircon tools offer unsurpassed accuracy for a lifetime of rugged use with manufacturing and QA systems tightly controlled at all stages of the production process. Locate studs, scan for metal pipes, avoid live electricity, map rebar—Zircon has a tool for every job.

Zircon provides users and retailers unparalleled support through on-line support, multi-language packaging, step-by-step instructions, how-to video content, targeted advertising, in-store fixture programs, and on-line engagement.

In 2025, the company celebrates its 50th anniversary, marking a legacy of industry innovation and a commitment to quality for customers worldwide. Visit [www.zircon.com/global](http://www.zircon.com/global) today.

# Scanners and Detectors

**Accurate. Affordable. Warranted. Supported.**

Give your customers what they deserve –  
the best tools for the job.

# HD Series

## Edge Finding

### StudSensor™ HD55

Two scan modes find the edges of studs or joists up to 38 mm deep. Features easy-to-read display screen with Target Spotlight to clearly indicate stud edge and WireWarning™ Detection.

## Centre Finding

### MultiScanner™ HD900

This all-in-one wall scanner quickly and easily locates studs and joists behind walls, floors, and ceilings. It also locates metal as well as live AC electrical wiring. A 4-mode switch makes it easy to change functions, while the ultra-bright display screen, SpotLite™ Pointer, and audio tone all indicate the location of the target.

# Metal Scanners

## Finding Metal

### MetalliScanner™ MT 7

Helps find pipes and junction boxes behind tile, map the grid, and detect nails and tacks in studs behind lath and plaster walls. The MT 7's bright, backlit display and audio tone indicate metal target depth up to 15 cm deep, type of metal located (ferrous or non-ferrous), and whether you are moving towards or away from a target.

- Features two scanning modes: ▲ Normal Scan ▲ DeepScan™
- Locates and determines the depth of 13 mm rebar and copper pipe, up to 15 cm
- Pivoting handle attachment for extended and overhead reach

### MetalliScanner™ m40

Solves the problem of finding studs in lath and plaster walls. It locates ferrous (magnetic) metal up to 10 cm deep and non-ferrous (non-magnetic) metal up to 5 cm deep. The m40 finds plumbing, ductwork, rebar, nails, and screws in walls, floors, and ceilings, and is great for scanning reclaimed lumber for hidden metal.

- Use Pinpoint Scan to locate small metal objects such as screws and nails
- Use Wide Scan to detect metal in walls or concrete
- LED arrays indicate signal strength

# Water Detectors & Levels

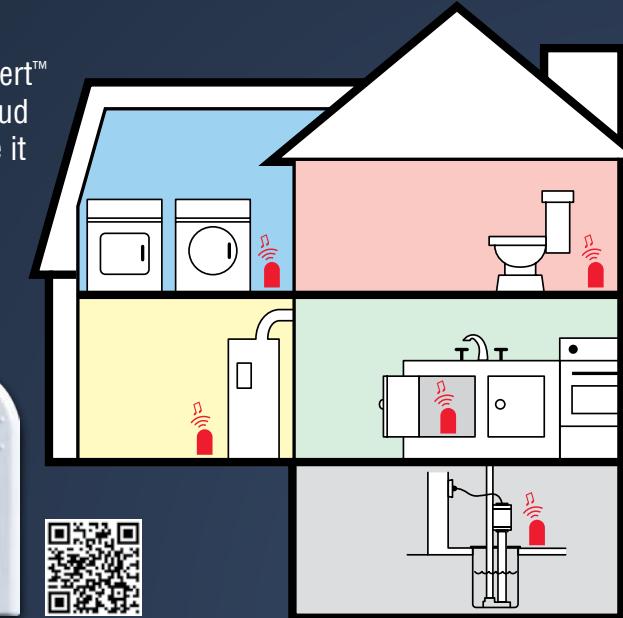

## Leak Alert™ / Leak Alert™ WiFi

### Leak Alert™

Prevent serious water damage in your home with the help of the Leak Alert™ water detector. This self-contained, battery-powered unit will sound a loud alarm the second it gets wet, alerting you to a potential water leak. Place it anywhere the potential for flooding or leaking exists:

- Under sinks
- Near dishwashers and refrigerators
- Near water heaters
- Under fish tanks
- In basements
- Near plumbing and toilets

- Loud alarm (90 dB) sounds for life of battery
- In the event of a flood, unit will float and continue to sound alarm until battery is depleted
- Fully automatic operation—no wiring required
- Low battery indicator for optimum safety and performance

**Leak Alert™ WiFi smart water detector** offers all the features of the Leak Alert™ with the following:

- WiFi connectivity—No hub required
- Loud alarm (105 dB) sounds for life of battery
- Email, visual, and audio alerts
- Ability to check for, and update, software revisions

## Leveling

### WL 25 Pro

The Zircon™ WL 25 Pro electronic water level allows one-person to quickly and easily locate a precise level over long distances or around corners to install decks, fences, chair rails, drop ceilings, and more. The kit includes an adjustable mounting bracket for easy height adjustment, a 7.5 m hose, a tube-cleaning brush, a filler nozzle, and a hose adapter to connect an additional hose and extend the leveling distance.
